1 A third eye muscle, in males only

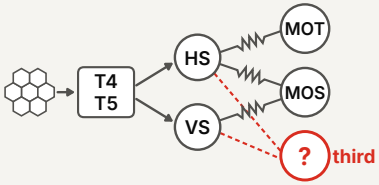

What is it for?

2 Model

WP1 · H1

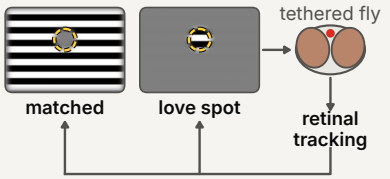

connectome + electrical synapses

3 Test

WP2 · H2

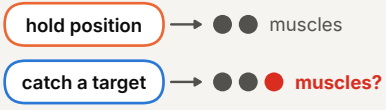

two stimuli, then the animal in the loop

4 Explain

WP3 · H3

one network, trained either to

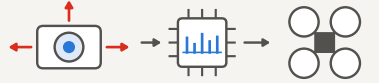

Does a third muscle emerge?

5 Transfer

WP4 · H4

event cameras that move their sensor

small targets · ego-motion · flight

6 Validate at scale

WP5

students and citizens run every model

courses · robot zoo · proofreading
